Trish Johnson, Asst. Principal

Dear East Bay K-8 Families,

It is with great honor that I officially welcome you to the “East Bay” family! I look forward to beginning my work with you and building a learning community where all students are loved, celebrated, and experience authentic, engaged learning opportunities. As we embark on this exciting new journey together, Mrs. Johnson (Assistant Principal) and I would like to share with all stakeholders that we are committed to supporting the Santa Rosa County School District’s mission of “preparing students for success by providing a superior, relevant education.”

As Mrs. Johnson and I diligently work to build a welcoming school campus and team of instructional leaders and support staff, we are guided by key words that keep our focus on students and families: Clarity, Communication, Consistency, and Celebration. Transitioning to a new school can be exciting and unsettling. Providing clarity on basic school information, procedures, safety, routines, transportation, campus layout, and student learning opportunities help to reduce this uncertainty. Through effective communication by means of parent nights (in-person and/or virtually), the school’s website, social media, monthly principal newsletters, call-outs, and text blasts, it is our goal to relay updates and information in a transparent and timely manner. An exciting opportunity at East Bay is the ability to offer consistency of instruction, support, expectations, and character-building opportunities to children from kindergarten through eighth grade. I am excited to build a positive and rich rapport with your child and family over the years! Lastly, at East Bay, we cannot wait to celebrate your child’s achievements and growth beginning this fall. Student recognition for academic growth as well as displaying targeted character traits that support success of the whole child will be a priority at East Bay K-8.

In the upcoming months, as a collective team, we will begin to forge new traditions and define our cultural foundations. I encourage you to utilize our school website, EastBayK8.com, which is updated weekly. The website contains a Q&A section with general information, a photo gallery of school construction, and will soon contain the 21-22 school supply list, kindergarten registration and screening dates, middle school electives procedure, parent information presentations, Teacher Meet-and-Greet dates/times, and much more. Welcome to East Bay K-8!

Serving Together,

Beth Mosley
